EDUCATION

University of California, Santa Cruz

Jan. 2024 - Jun. 2026

Bachelor of Science, Computer Science: Game Design

Santa Cruz, CA

- **GPA: 3.96** ; Dean's Honors
- **Relevant Coursework:** Programming Abstractions in Python, UI/UX Design, Computer Systems & Assembly Language, Discrete Math, Database Systems, Data Structures and Algorithms, AI, Adv Programming, Networks
- **Clubs:** Chinese Student Association (Event Coordinator Intern), Society of Women Engineers, Popreka

WORK EXPERIENCE

Baskin Engineering, UCSC

Jan. 2025 – Jun. 2026

Group Tutor for CMPM 80K - Foundations of Game Design

Santa Cruz, CA

- Assisted the TA during discussion sections by guiding students on using platforms essential for assignments, including GitHub, Twine, and GDevelop.
- Provided support by answering student questions related to game design and programming assignments.

Reader

- Evaluate weekly reading annotations and minor writing assignments for accuracy and comprehension.
- Assess game projects, ensuring alignment with course criteria and objectives.

Robotics Cats

Jun. 2025 – Jul. 2025

Software Engineer Intern

Remote

- Acted as team lead for the first project developing a cross-platform Python desktop tool that automates FTP-based image retrieval and wildfire detection via API integration, featuring configurable UI, secure credential handling, and robust error logging.
- Coordinated intern team efforts by organizing meetings, assigning tasks, and presenting the final product to management.
- Contributed to the development of additional projects, including a receipt auto-logger/reader and an AI-powered trivia game generating new daily questions with multiple additional game features.

Folsom Lake Community College

Aug. 2023 – Dec. 2023

Embedded Tutor

Folsom, CA

- Supported CHEM 305 students by reinforcing lecture material, assisting with homework, and holding regular office hours to clarify course concepts and exam topics.

Mathnasium

Jul. 2022 – Dec. 2023

Math Instructor

Folsom, CA

- Taught personalized math instruction to K–12 students, adapting to individual learning needs and managing curriculum materials and assessments.

SKILLS & INTERESTS

- **Skills:**
 - **Programming Languages:** C; C++; Python; Java; HTML; CSS; JavaScript; HTML; CSS; Typescript
 - **Design/Frameworks/Game Engines:** Canva; GDevelop; Adobe Fresco; Phaser; Unity; Figma; React
 - **Other:** Problem Solving; Game Development; Time Management; Analytical Skills; Organization; Teamwork; Critical Thinking; Writing; Communication; Speed Typing; Creativity and Innovation
- **Interests:** skiing; video games; piano; knitting/crocheting
